Author Index

Author Index to Volume 25 (1980)

1-196 JAN	**405-508 APR**	**703-794 JUL**	**983-1078 OCT**
197-300 FEB	**509-600 MAY**	**795-894 AUG**	**1079-1214 NOV**
301-404 MAR	**601-702 JUN**	**895-982 SEP**	**1215-1358 DEC**

Abramson, Joan (et al): Evaluation and Comparison of Commercial Blood Gas Quality Controls and Tonometry (article) **441**

American Thoracic Society Respiratory Care Committee: Guidelines for the Use of Intermittent Positive Pressure Breathing (IPPB) **365**

Anderson, Claus L (co-author): Late-Onset Respiratory Failure in Previous Poliomyelitis: Two Cases (case reports) **755**

——— (et al): Physiological Significance of Sternomastoid Muscle Contraction in Chronic Obstructive Pulmonary Disease (article) **937**

Assmann, David C: Reply to letter "Clinical Simulation: Conservative or Aggressive Management?" **15**

Babbs, Charles F (co-author): Emergency Cardiac Ventricular Defibrillation (article) **643**

——— (et al): Recent Advances in Cardiopulmonary Resuscitation (article) **639**

Bageant, Robert A: *Acinetobacter* Infection—Was It Associated with Ventilator Spirometers, Inefficiently Washed Hands, or Lack of Sterile Gloves? (letter) **619**

Bakow, Eric D: Design and Performance of a Clinical Study (chapter in Clinical Research Guide) **173**

——— (co-author): Publishing the Study (chapter in Clinical Research Guide) **185**

Barber, Edward: Volume-Oriented IPPB Revisited (questions & answers) **1057**

Barnes, Thomas A: Book review of "Clinical Simulations for Respiratory Care Practitioners" **286**

——— (co-author): Oxygen Delivery Performance of Three Adult Resuscitation Bags (article) **928**

Bloy, Barbara: Following Up Freshman English: Reading, Writing, Thinking, and the Art/Science of Respiratory Care (article) **1145**

Boros, Stephen J (et al): An Investigation of the Placement of the Pressure Relief Valve in the Bourns BP200 Infant Ventilator (article) **341**

Brigham, Kenneth L (et al): The Pulmonary Circulation (Basics of RD) **264**

Brown, Don G (co-author): Performance of Bacteria Filters (article) **1127**

Callahan, Michael W: Sources of Grant Funds (chapter in Clinical Research Guide) **128**

Campbell, Kathy (co-author): An Investigation of the Placement of the Pressure Relief Valve in the Bourns BP200 Infant Ventilator (article) **341**

Cane, Roy D (co-author): Air Entrainment Mask Principle (letter) **17**

Capek, Kenneth (et al): Relocating Bourns BEAR Flow Transducer (letter) **523**

Ciarcia, Manuel (co-author): Management of a Bronchopleural Fistula with Differential Lung Ventilation and Positive End-Expiratory Pressure (case report) **654**

Civetta, Joseph M: Answer to question on care of arterial lines (questions & answers) **85**
Cohen, Aaron (co-author): Two-Site Noninvasive Oxygen Monitoring in a Case of Persistent Fetal Circulation (case report) **358**
Comer, Paul B (co-author): Tracheal Oxygen Concentrations with a Nasal Cannula during Oral and Nasal Breathing (article) **739**
Covington, Steven C (et al): Selective Bronchial Intubation in the Management of Severe Unilateral Pulmonary Interstitial Emphysema: A Case Report **751**
Darveaux, René (co-author): Use of the Isovolume FEF25-75% To Assess Small Airway Obstruction (article) **59**
Dawley, Harold H Jr: To Smoke or Not: Freedom of Choice Is the Best Choice (editorial) **230**
Dean, Norman L (co-author): Aerosolized Atropine in Relief of Bronchospasm and Cough: A Case Report **570**
Demers, Robert R: Foreword to Clinical Research Guide **111**
——: A Legacy to Would-Be Authors from Dr Meyer Saklad (editorial) **438**
—— (co-author): An Outbreak of *Acinetobacter* Infection Associated with the Use of a Ventilator Spirometer (article) **232**
—— (co-author): Reply to letter "*Acinetobacter* Infection—Was It Associated with Ventilator Spirometers, Inefficiently Washed Hands, or Lack of Sterile Gloves?" **619**
Des Jardins, Terry R: Freon-Propelled Bronchodilator Use as a Potential Hazard to Asthmatic Patients (article) **50**
——: Reply to letter "In Defense of Freon-Propelled Bronchodilators" **620**
Dinsbier, David R: Healthdyne Infant Ventilator Computer Problem (letter) **809**
Downs, John B (co-author): A Comparison of Synchronized and Nonsynchronized Intermittent Mandatory Ventilation (article) **554**
Dryden, Gale E (et al): Performance of Bacteria Filters (article) **1127**
Dryden, Steven R (co-author): Performance of Bacteria Filters (article) **1127**
Ehrhart, Ina C (co-author): Laboratory Interactive Clinical Simulations Using Anesthetized Dogs (article) **823**
Engdahl, Warner: Identifying a Clinical Problem (chapter in Clinical Research Guide) **125**
—— (co-author): Formulating a Conclusion (chapter in Clinical Research Guide) **179**
Epstein, Michael F (co-author): Two-Site Noninvasive Oxygen Monitoring in a Case of Persistent Fetal Circulation (case report) **358**
Estey, William: Subjective Effects of Dry versus Humidified Low Flow Oxygen (article) **1143**
Felson, Benjamin: The Chest Roentgenologic Workup—What and Why? Conventional Methods (Basics of RD) **955**
Fitzmaurice, Mary Watson (et al): Oxygen Delivery Performance of Three Adult Resuscitation Bags (article) **928**
——: Book review of "Chest Physical Therapy and Pulmonary Rehabilitation, an Interdisciplinary Approach" **504**
Flournoy, DJ (et al): Volume Ventilator as a Vehicle of Airborne Bacterial Contamination from Patients (article) **742**
Fluck, Robert R Jr: More on K-79 Stopcock (letter) **523**
Friedman, Jack (co-author): Effects of Syringe and Filling Volume on Analysis of Blood pH, Oxygen Tension, and Carbon Dioxide Tension (article) **558**
Garrity , Francis L (co-author): Community-Acquired *Citrobacter diversus* Infections (case report) **66**
—— (co-author): An Outbreak of *Acinetobacter* Infection Associated with the Use of a Ventilator Spirometer (article) **232**
Gauer, Paul (et al): Effects of Syringe and Filling Volume on Analysis of Blood pH, Oxygen Tension, and Carbon Dioxide Tension (article) **558**
Gibson, Robert L (co-author): Tracheal Oxygen Concentrations with a Nasal Cannula during Oral and Nasal Breathing (article) **739**
Gilles, Bernard (et al): Clinical Blood-Gas Data Should Be Temperature-Compensated (letter) **523**
Gilman, Ronald M (et al): Community-Acquired *Citrobacter diversus* Infections (case report) **66**
Gjerde, G Eric (et al): An Oxygen Therapy Fire (methods, devices, & notes) **362**
Godzeski, Carl (co-author): Performance of Bacteria Filters (article) **1127**
Goodrich, Carey C (co-author): A Modification of the Bennett MA-1 Ventilator To Permit On-Demand Flow and Exhaled Volume Monitoring during Continuous Flow IMV with PEEP (methods, devices, & notes) **941**
Gozdziewski, Steven C (et al): Searching the Literature (chapter in Clinical Research Guide) **113**
Grenda, Thomas J Jr (co-author): Cost of Operation and Reliability of Two Brands of Volume Ventilators (article) **838**
Harrison, Ronald A (co-author): Air Entrainment Mask Principle (letter) **17**
Harvey, James (et al): Pulmonary Complications of Ingestion of the Herbicide Paraquat: A Case Report **573**
Hassert, David (co-author): Relocating Bourns BEAR Flow Transducer (letter) **523**

Hasten, Ronald W (et al): A Comparison of Synchronized and Nonsynchronized Intermittent Mandatory Ventilation (article) **554**

Heebink, Denise M: Dr Bird's High Frequency Ventilator—Will It Fly? (report) **1062**

_____: Society of Critical Care Medicine Annual Meeting (report) **949**

Heenan, Thomas J (co-author): A Comparison of Synchronized and Nonsynchronized Intermittent Mandatory Ventilation (article) **554**

Helmholz, H Frederick Jr: Book review of "Respiratory Physiology, the Essentials" **503**

_____ (co-author): Clinical Blood-Gas Data Should Be Temperature-Compensated (letter) **523**

_____: Dr Helmholz Corrects Dr Helmholz (letter) **718**

_____: Reply to letter "Clinical Simulation: Conservative or Aggressive Management?" **16**

Hess, Dean (et al): Nomograms for the Application of the Bourns Model BP200 as a Volume-Constant Ventilator (methods, devices, & notes) **248**

_____: Respiratory Failure as a Complication of Multiple Sclerosis (case report) **452**

_____ (co-author): Use of Medication Cards in a Respiratory Therapy Training Program (methods, devices, & notes) **660**

Hill, Donald J: Clinical Simulation: Conservative or Aggressive Management? (letter) **15**

Hofman, Wendell F (co-author): Laboratory Interactive Clinical Simulations Using Anesthetized Dogs (article) **823**

Holford, Stephen K (co-author): Lung Sounds (Basics of RD) **763**

Hoover, Glenn M: Pressure Gradients in Air Entrainment (letter) **315**

Imrey, Peter (co-author): Effects of Syringe and Filling Volume on Analysis of Blood pH, Oxygen Tension, and Carbon Dioxide Tension (article) **558**

Irwin, Richard S (co-author): Community-Acquired *Citrobacter diversus* Infections (case report) **66**

_____ (et al): An Outbreak of *Acinetobacter* Infection Associated with the Use of a Ventilator Spirometer (article) **232**

_____ (et al): Reply to letter "*Acinetobacter* Infection—Was It Associated with Ventilator Spirometers, Inefficiently Washed Hands, or Lack of Sterile Gloves?" **619**

Jenner, Wayne: Answers and Discussion: Positive Pressure Ventilation Quiz **945**

_____: Answers and Discussion: Respiratory Therapy Pharmacology Quiz **463**

_____: Positive Pressure Ventilation Quiz **855**

_____: Respiratory Therapy Pharmacology Quiz **385**

Kamen, Jack M: More on Endotracheal Tube Cuff Deflation (letter) **16**

Kauffman, Garry W (et al): Use of Medication Cards in a Respiratory Therapy Training Program (methods, devices, & notes) **660**

Kenny, James M (et al): Formulating a Conclusion (chapter in Clinical Research Guide) **179**

Kittredge, Philip: Abstracts—The Truth, Good, and Beauty of Them (editorial) **821**

_____: Anesthesiologists Meet (report) **79**

_____: More Product Problems Reported (report) **761**

_____: Recalls and Product Improvements Resulting from the USP Problem-Reporting Program (report) **252**

Kraemer, Roger (co-author): An Oxygen Therapy Fire (methods, devices, & notes) **362**

Lavin, Mark J (et al): Lung Contusion—A Chimera (case report) **242**

Lazarus, Angeline: Pulmonary Function Tests in Upper Airway Obstruction (Basics of RD) **665**

LeBouef, L Lynn: 1980 Assessment of Eight Adult Manual Resuscitators (article) **1136**

Lee, Tai-Shion (et al): Pseudo-failure of Mechanical Ventilator Caused by Accidental Endobronchial Nasogastric Tube Insertion (case report) **851**

Lind, Les (co-author): Nomograms for the Application of the Bourns Model BP200 as a Volume-Constant Ventilator (methods, devices, & notes) **248**

Loveland, Steven R (et al): The Credibility Crisis and the Need for Respiratory Medicine Research (editorial) **44**

_____ (et al): Laboratory Interactive Clinical Simulations Using Anesthetized Dogs (article) **823**

_____: Writing a Grant Application (chapter in Clinical Research Guide) **139**

Marino, Brenda L (co-author): Selective Bronchial Intubation in the Management of Severe Unilateral Pulmonary Interstitial Emphysema: A Case Report **751**

Marks, Ronald G: Principles of Statistics in Respiratory Research: Part 1. The Role of Statistics in Research (article) **238**

_____: Principles of Statistics in Respiratory Research: Part 2. Research Design: Establishing the Research Objective and Determining the Type of Data To Collect (article) **353**

_____: Principles of Statistics in Respiratory Research: Part 3. Research Design: The Concepts of Repeated Measures and Estimating the Sample Size (article) **448**

_____: Principles of Statistics in Respiratory Research: Part 4. Research Design: Choosing the Sample and Randomizing Treatments to the Sample (article) **564**

_____: Principles of Statistics in Respiratory Research: Part 5. An Introduction to Statistical Analysis (article) **649**

_____: Principles of Statistics in Respiratory Research: Part 6. Hypothesis Testing (article) **745**
_____: Principles of Statistics in Respiratory Research: Part 7. An Introduction to Multiple Regression Analysis (article) **845**
_____: Principles of Statistics in Respiratory Research: Part 8. Calculators and Computers: The Researcher's Saviour or Scourge? (article) **934**
_____: Principles of Statistics in Respiratory Research: Part 9. Reporting the Results of a Research Project (article) **1015**
Massaro, Donald: Clinical Implications of the Effect of Breathing Pattern on the Lung (Basics of RD) **377**
Mathewson, Hugh S (co-author): Lung Contusion—A Chimera (case report) **242**
Maxwell, Christopher (et al): A Modification of the Bennett MA-1 Ventilator To Permit On-Demand Flow and Exhaled Volume Monitoring during Continuous Flow IMV with PEEP (methods, devices, & notes) **941**
McDowell, James W: Radiographic and Pulmonary Function Changes in a Case of Pulmonary Sarcoidosis (case report) **63**
_____: Transcutaneous Monitor Electrode Adjustment (letter) **214**
McGovern, James D (co-author): Community-Acquired *Citrobacter diversus* Infections (case report) **66**
McLaughlin, Arthur J Jr: Allergic Contact Dermatitis from Oxygen Cannulas (case report) **1024**
_____ (et al): Cost of Operation and Reliability of Two Brands of Volume Ventilators (article) **838**
McPherson, Gloria L (co-author): Use of the Isovolume FEF25-75% To Assess Small Airway Obstruction (article) **59**
Mercurio, Philip (et al): Patient's Role in IPPB—Active or Passive? (letter) **717**
Miller, William F: In Defense of Freon-Propelled Bronchodilators (letter) **619**
_____: The Respiratory Therapy Practitioner Today and Tomorrow (editorial) **336**
Miner, Gertrude (co-author): An Outbreak of *Acinetobacter* Infection Associated with the Use of a Ventilator Spirometer (article) **232**
Mishoe, Shelley Cominsky: Current and Future Credentialing in Respiratory Therapy (article) **345**
Mohler, John G (co-author): Evaluation Comparison of Commercial Blood Gas Quality Controls and Tonometry (article) **441**
Monast, Ramon: Devices for Expired Gas Collection (letter) **214**
Motoyama, Etsuro K (co-author): Management of a Bronchopleural Fistula with Differential Lung Ventilation and Positive End-Expiratory Pressure (case report) **654**
Murphy, Raymond LH Jr (et al): Lung Sounds (Basics of RD) **763**
Newman, John H (co-author): The Pulmonary Circulation (Basics of RD) **264**
O'Donohue, Walter J Jr: Reply to letter "Patient's Role in IPPB—Active or Passive?" **717**
Palma, James (co-author): Management of a Bronchopleural Fistula with Differential Lung Ventilation and Positive End-Expiratory Pressure (case report) **654**
Palmer, Dana (co-author): Pulmonary Complications of Ingestion of the Herbicide Paraquat: A Case Report **573**
Perlson, Robert M (et al): Hyperventilation Therapy for Persistent Fetal Circulation: Two Case Reports **1019**
Pierson, David J (co-author): Searching the Literature (chapter in Clinical Research Guide) **113**
_____ (et al): Publishing the Study (chapter in Clinical Research Guide) **185**
_____: How To Write a Case Report (editorial) **925**
Pilbeam, Susan P: Fundamentals of Biostatistics (chapter in Clinical Research Guide) **154**
Plumlee, Charles J (co-author): Volume Ventilator as a Vehicle of Airborne Bacterial Contamination from Patients (article) **742**
Plunkett, Patrick F: Book review of "Pharmacology of Respiratory Therapy Medications" **587**
Poltl, Kathryn (co-author): Evaluation and Comparison of Commercial Blood Gas Quality Controls and Tonometry (article) **441**
Porter, Ted: Value and Application of Temperature-Compensated Blood Gas Data (questions & answers) **260**
Poulton, Thomas J (et al): Tracheal Oxygen Concentrations with a Nasal Cannula during Oral and Nasal Breathing (article) **739**
Powers, William E: Answer to question on volume-oriented IPPB (questions & answers) **1057**
Pratter, Melvin R (co-author): An Outbreak of *Acinetobacter* Infection Associated with the Use of a Ventilator Spirometer (article) **232**
Pritchard, Anne (co-author): An Outbreak of *Acinetobacter* Infection Associated with the Use of a Ventilator Spirometer (article) **232**
Pylant, Rogers T: Solving the Problem of Cracking Plastic in Cascade Humidifier Heating Modules (letter) **1093**
Rafferty, Terence D (et al): Management of a Bronchopleural Fistula with Differential Lung Ventilation and Positive End-Expiratory Pressure (case report) **654**
Rauzi, Harold R Jr: Respiratory Failure in Landry-Guillain-Barré-Strohl Syndrome: A Case Report **457**
Roaf, Edward R (co-author): Two-Site Noninvasive Oxygen Monitoring in a Case of Persistent Fetal Circulation (case report) **358**

Robbins, David W: Contamination from Nebulizers (letter) **1093**
Rutsohn, Philip D (co-author): The Credibility Crisis and the Need for Respiratory Medicine Research (editorial) **44**
Scacci, Robert: Reply to letter "Air Entrainment Masks: Some Thoughts on Reading Dr Scacci's Recent Paper" **212**
_____: Reply to letter "Mechanisms of Atomizers" **214**
_____: Reply to letter "Pressure Gradients in Air Entrainment" **315**
Schachter, E Neil (co-author): Aerosolized Atropine in Relief of Bronchospasm and Cough: A Case Report **570**
_____ (co-author): Management of a Bronchopleural Fistula with Differential Lung Ventilation and Positive End-Expiratory Pressure (case report) **654**
Schatzle, Kenneth C (co-author): Performance of Bacteria Filters (article) **1127**
Robbins, David W: Contamination from Nebulizers (letter) **1093**
Schrader, Marilyn W (co-author): Pseudo-failure of Mechanical Ventilator Caused by Accidental Endobronchial Nasogastric Tube Insertion (case report) **851**
Scott, John H (et al): Late-Onset Respiratory Failure in Previous Poliomyelitis: Two Cases **755**
_____ (co-author): Physiological Significance of Sternomastoid Muscle Contraction in Chronic Obstructive Pulmonary Disease (article) **937**
Shankar, Patil S (co-author): Late-Onset Respiratory Failure in Previous Poliomyelitis: Two Cases **755**
_____ (co-author): Physiological Significance of Sternomastoid Muscle Contraction in Chronic Obstructive Pulmonary Disease (article) **937**
Shapiro, Barry A (et al): Air Entrainment Mask Principle (letter) **17**
_____ (co-author): Answer to question on value and application of temperature-compensated blood gas data (questions & answers) **260**
Shapiro, Bertrand (co-author): Patient's Role in IPPB—Active or Passive? (letter) **717**
Slavin, Richard E (et al): Two-Site Noninvasive Oxygen Monitoring in a Case of Persisent Fetal Circulation (case report) **358**
Smith, Roberta M (co-author): Selective Bronchial Intubation in the Management of Severe Unilateral Pulmonary Interstitial Emphysema: A Case Report **751**
Steffee, Ronald L (co-author): Volume Ventilator as a Vehicle of Airborne Bacterial Contamination from Patients (article) **742**
Stinson, Joseph M (et al): Use of the Isovolume FEF25-75% To Assess Small Airway Obstruction (article) **59**
Stumpff, Lawrence (co-author): Hyperventilation Therapy for Persistent Fetal Circulation: Two Case Reports **1019**
Tacker, Willis A Jr (et al): Emergency Cardiac Ventricular Defibrillation (article) **643**
_____ (co-author): Recent Advances in Cardiopulmonary Resuscitation (article) **639**
Verkaik, Gerda (co-author): Evaluation and Comparison of Commercial Blood Gas Quality Controls and Tonometry (article) **441**
Vogt, Mike: Care of Arterial Lines (questions & answers) **85**
Walton, John R (co-author): Air Entrainment Mask Principle (letter) **17**
_____ (et al): Answer to question on value and application of temperature-compensated blood gas data (questions & answers) **260**
Ward, Jeffrey J (co-author): Clinical Blood-Gas Data Should Be Temperature-Compensated (letter) **523**
Wasielewski, Ronald D: Mechanisms of Atomizers (letter) **212**
Welch, Melvin A Jr (co-author): Patient's Role in IPPB—Active or Passive? (letter) **717**
Whitacre, Jim: Air Entrainment Masks: Some Thoughts on Reading Dr Scacci's Recent Paper (letter) **211**
Whitaker, Susan (co-author): An Outbreak of *Acinetobacter* Infection Associated with the Use of a Ventilator Spirometer (article) **232**
Witek, Theodore J Jr (et al): Aerosolized Atropine in Relief of Bronchospasm and Cough: A Case Report **570**
Wright, Ballard D (co-author): Pseudo-failure of Mechanical Ventilator Caused by Accidental Endobronchial Nasogastric Tube Insertion (case report) **851**

Subject Index

Subject Index to Volume 25 (1980)

1-196 JAN	**405-508 APR**	**703-794 JUL**	**983-1078 OCT**
197-300 FEB	**509-600 MAY**	**795-894 AUG**	**1079-1214 NOV**
301-400 MAR	**601-702 JAN**	**895-982 SEP**	**1215-1358 DEC**

Abstracts of articles, value of **821** (editorial)
Accreditation of respiratory therapy educational programs **345** (article)
Acinetobacter infection & ventilator spirometers **232** (article), **619** (letter)
Aerosol propellant hazards **50** (article), **619** (letter)
Air entrainment O_2 mask principle **17, 211, 315** (letters)
Airway obstruction, upper, Pulmonary function tests in **665** (Basics of RD)
Allergic dermatitis from O_2 cannulas **1024** (case report)
Ambu Mark II resuscitator assessment **1136** (article)
American Society of Anesthesiologists meeting **79** (report)
Anesthesiology (ASA) meeting **79** (report)
ANOVA test **154** (research guide)
Answers to 1979 year-end quiz **87**
Answers to pharmacology quiz **463**
Answers to positive pressure ventilation quiz **945**
Answers to self-evaluation examination **1155**
Arterial lines, Care of **85** (questions & answers)
Asthma, Hazards of Freon-propelled bronchodilators in **50** (article), **619** (letter)
Atomizers, Mechanisms of **212** (letter)
Atropine, aerosolized, for bronchospasm & cough **570** (case report)
Auscultation of the lung **763** (Basics of RD)
Awards, Bird Literary **1283**
Award, Warner-Chilcott Literary **1284**
Bacteria filter performance **1127** (article)
Bacterial contamination, airborne, from volume ventilators **742** (article), **1093** (letter)
BEAR 1 & MA-1 operating costs & reliability compared **838** (article)
Bennett Cascade I humidifier heating module problem **1093** (letter)
Bernoulli Principle **17, 211, 315** (letters)
Bibliographies, Use of **113** (research guide)
Biomedical research **44** (editorial)
Biostatistics **154** (research guide)
Bird high frequency positive pressure ventilator **1062** (report)
Bird Literary Awards **1283**
Bird resuscitator part recall notice **909** (letter)
Blood gas data, temperature-compensated **260** (questions & answers), **523** (letter)
Blood gas quality controls & tonometry comparison & evaluation **441** (article)
Blood gas values, Effects of syringe & filling volume on **558** (article)
Blood gases in upper airways obstruction **665** (Basics of RD)
Book review: "Chest Physical Therapy and Pulmonary Rehabilitation, an Interdisciplinary Approach" **504**

Book review: "Clinical Simulations for Respiratory Care Practitioners" **286**
Book review: "Pharmacology of Respiratory Therapy Medications" **587**
Book review: "Respiratory Physiology, the Essentials" **503**
Bourns BEAR flow transducer relocation **523** (letter)
Bourns BP200 ventilator nomogram **248** (methods, devices, & notes)
Bourns BP200 ventilator, Placement of pressure relief valve in **341** (article)
Breath sounds **763** (Basics of RD)
Breathing pattern's effect on the lung **377** (Basics of RD)
Bronchodilator challenge, Pulmonary function results of **59** (article)
Bronchodilators, Hazards of Freon-propelled **50** (article), **619** (letter)
Bronchopleural fistula management with differential lung ventilation and PEEP **654** (case report)
Bronchospasm treated with aerosolized atropine **570** (case report)
Budget, research **139** (research guide)
Burns, Lung complications of **79** (report)
Buyer's Guide **1287**
Calculators in research statistics **934** (article)
Cannulas, oxygen, causing allergic dermatitis **1024** (case report)
Cannulas, oxygen, & tracheal O_2 concentrations during oral & nasal breathing **739** (article)
Cardiac defibrillation **643** (article)
Cardiac fibrillation **643** (article)
Cardiopulmonary resuscitation **639, 643** (articles)
Cascade I (Bennett) humidifier heating module problem **1093** (letter)
Case report writing **925** (editorial)
Chest physical therapy & cardiorespiratory changes **925** (report)
Chest roentgenologic workup **955** (Basics of RD)
Chronic pulmonary hypertension **264** (Basics of RD)
Chronic pulmonary hypertension **264** (Basics of RD)
Citrobacter diversus **66** (case report)
Clinical problem identification **125** (research guide)
Clinical problem-solving data **125** (research guide)
Clinical simulation exam **15** (letter)
Clinical simulations using anesthetized dogs **823** (article)
Cluster sampling **564** (article)
Computerized retrieval systems **113** (research guide)
Computers in research statistics **934** (article)
Conclusions, experimental, Formulation of **179** (research guide)
Confidence coefficient **448** (article)
Contamination from volume ventilator **742** (article), **1093** (letter)
Contusion, lung **242** (case report)
COPD = Chronic obstructive pulmonary disease
COPD & physiological significance of sternomastoid muscle contraction **937** (article)
Correlation coefficient **845** (article)
Costs, operating, of MA-1 & BEAR 1 **838** (article)
Cough treated with aerosolized atropine **570** (case report)
CPR **639, 643** (articles)
CPR = Cardiopulmonary resuscitation
CPT & cardiorespiratory changes **949** (report)
CPT = Chest physical therapy
Credentialing in respiratory therapy **345** (article)
Critical care meeting **949** (report)
Critical value **745** (article)
Cuff deflation, endotracheal tube **16** (letter)
Data collection in research **353** (article)
Deductive and inductive reasoning **1145** (article)
Defibrillation, cardiac **643** (article)
Defibrillators **643** (article)
Demand searches of medical literature **113** (research guide)
Dependent or paired samples **745** (article)
Dependent variables **154, 173** (research guide)
Dermatitis, allergic, from oxygen cannulas **1024** (case report)
Descriptive statistics **154** (research guide)
Differential lung ventilation & PEEP in management of bronchopleural fistula **654** (case report)
Diseases, genetic, detected by fetoscopy **255** (Research McGill)
Distribution curves, normal **154** (research guide), **649** (article)
Diving reflex and resuscitation **949** (report)
Dogs, laboratory, used in interactive clinical simulations **823** (article)
Double-blind study **173** (research guide)
Dry versus humidified low flow oxygen **1143** (article)
Educational programs, respiratory therapy, Accreditation of **345** (article)
Electrical safety **79** (report)
Empirical rule **649** (article)
Endobronchial nasogastric tube insertion & pseudo-failure of mechanical ventilator **851** (case report)
Endotracheal tube cuff deflation **16** (letter)
English, freshman, and respiratory care **1145** (article)
Examination, clinical simulation **15** (letter)
Examination, self-evaluation **1029**
Examination, self-evaluation, answers **1155**
Experimental conclusions, Formulation of **179** (research guide)
Experimental unit **353, 448** (articles)
Expired gas collection devices **214, 523** (letters)

Factor definition in research **448** (article)
Faculty research development **44** (editorial)
Federal grants **128** (research guide)
FEF25-75% in small airways obstruction **59** (article)
Fetoscopy in prenatal detection of genetic diseases **225** (Research McGill)
Fibrillation, cardiac **643** (article)
Fire, oxygen therapy **363** (methods, devices, & notes)
Flow transducer relocation on Bourns BEAR 1 ventilator **523** (letter)
Flow-volume curve & loop in upper airways obstruction **665** (Basics of RD)
Freon aerosol propellant hazards **50** (article), **619** (letter)
Freon-propelled bronchodilators defended **619** (letter)
Frequency distribution **154** (research guide), **649** (article)
Frequency histogram **649** (article)
Friedman two-way analysis of variance **745** (article)
Genetic disease detection by fetoscopy **255** (Research McGill)
Grant application writing **139** (research guide
Grant proposals **139** (research guide)
Granting agencies, private **128** (research guide)
Grants, federal **128** (research guide)
Graphs, statistical **154** (research guide)
Guidelines for use of IPPB **365** (guidelines and statements)
Guillain-Barré syndrome & respiratory failure **457** (case report)
Hazards of Freon-propelled bronchodilators **50** (article), **619** (letter)
Healthdyne infant ventilator computer problem **809** (letter)
HFPPV = High frequency positive pressure ventilation
High frequency positive pressure ventilation **949, 1062** (reports)
High frequency positive pressure ventilator, Bird **1062** (report)
Histogram, frequency **649** (article)
Home ventilation for infants & children **949** (report)
Hope I resuscitator O_2 delivery performance **928, 1136** (articles)
Hope II resuscitator O_2 delivery performance **928, 1136** (articles)
Hudson resuscitator assessment **1136** (article)
Humidified versus dry low flow oxygen **1143** (article)
Humidifier heater problems **1093** (letter)
Hyperventilation therapy for persistent fetal circulation **1019** (case report)
Hypothesis testing **154** (research guide), **649, 745** (articles)
Hypoxic pulmonary vasoconstriction **264** (Basics of RD)
IMV = Intermittent mandatory ventilation
IMV-SIMV comparison study **554** (article)
Independent variables **154** (research guide), **173** (article)
Index Medicus **113** (research guide)
Infant respiratory distress syndrome **751** (case report)
Infant ventilator, Healthdyne, computer problem **809** (letter)
Infants, Home ventilation of **949** (report)
Infection, Acinetobacter, associated with ventilator spirometers **232** (article), **619** (letter)
Inferential statistics **154** (research guide)
Intensive care for infants & children **79** (report)
Intermittent mandatory ventilation = IMV
Intermittent positive pressure breathing = IPPB
Interstitial pulmonary emphysema management by selective bronchial intubation **751** (case report)
Intrapulmonary drug therapy during CPR **639** (article)
Intubation, selective bronchial, management of severe unilateral pulmonary interstitial emphysema **751** (case report)
IPPB, Guidelines for use of **365** (guidelines & statements)
IPPB = Intermittent positive pressure breathing
IPPB patient role, active or passive **717** (letter)
IPPB, volume-oriented **1057** (questions & answers)
Kruskal-Wallis test **745** (article)
K-79 stopcock function **523** (letter)
Laerdal II resuscitator assessment **1136** (article)
Landry-Guillain-Barré-Strohl syndrome & respiratory failure **457** (case report)
Language skills and respiratory care **1145** (article)
Latin square design **564** (article)
Level of factor in research **448** (article)
Licensure in respiratory therapy **345** (article)
Lidocaine in prevention of airways obstruction after tonsillectomy **79** (report)
Linear regression **154** (research guide)
Linear regression model **845** (article)
Literary Awards, Bird **1283**
Literary Awards, Warner-Chilcott **1284**
Literature search, medical **113** (research guide)
Logic and problem-oriented medical records **1145** (article)
Logic systems and freshman English **1145** (article)
Lung contusion **242** (case report)
Lung sounds **763** (Basics of RD)
Mann Whitney U test **745** (article)
MA-1 and BEAR 1 costs of operation & reliability compared **838** (article)
MA-1 ventilator modification for demand flow & volume monitoring during continuous flow IMV with PEEP **941** (methods, devices, & notes)
Manual resuscitator assessment **1136** (article)
Manual resuscitators, O_2 delivery performance of **928, 1136** (articles)
Masks, oxygen air entrainment **17, 211, 315** (letters)

McNemar test **745** (article)
Medication cards in respiratory therapy training **660** (methods, devices, & notes)
Modification of MA-1 ventilator for demand flow & exhaled volume monitoring during continuous flow IMV with PEEP **941** (methods, devices, & notes)
Monitor, transcutaneous Po_2, Electrode adjustment of **214** (letter)
Multiple regression analysis **649, 845** (articles)
Multiple sclerosis & respiratory failure **452** (case report)
Nasogastric tube misplacement & pseudo-failure of mechanical ventilator **851** (case report)
National Board for Respiratory Therapy = NBRT
National foundations **128** (research guide)
National Institutes of Health contracts **139** (research guide)
National Institutes of Health grant procedure **139** (research guide)
National Library of Medicine **113** (research guide)
NBRT clinical simulation exams **15** (letter)
NBRT = National Board for Respiratory Therapy
Neonatal care: hyperventilation for persistent fetal circulation **1019** (case report)
NIH = National Institutes of Health
Nomograms for Bourns BP200 ventilator **248** (methods, devices, & notes)
Normal distribution curve **154** (research guide), **649** (article)
Nursing research **44** (editorial)
Obstruction, upper airways, Pulmonary function tests in **665** (Basics of RD)
Oxygen air entrainment masks **17, 211, 315** (letters)
Oxygen cannulas & allergic dermatitis **1024** (case report)
Oxygen cannulas & tracheal oxygen concentrations during oral and nasal breathing **739** (article)
Oxygen delivery of adult resuscitation bags **928, 1136** (articles)
Oxygen, dry versus humidified **1143** (article)
Oxygen monitoring at two sites in persistent fetal circulation **358** (case report)
Oxygen therapy fire **362** (methods, devices, & notes)
Paired or dependent samples **745** (article)
Parameter in research population **450, 649** (articles)
Paraquat ingestion, Pulmonary complications of **573** (case report)
Pediatric intensive care **79** (report)
Pediatric patients, Home ventilation of **949** (report)
Pediatric ventilator (Bourns BP200), Placement of pressure relief valve in **341** (article)
Pediatric ventilator (Healthdyne) computer problem **809** (letter)
PEEP and differential lung ventilation in management of bronchopleural fistula **654** (case report)
Penlon resuscitator assessment **1136** (article)
Persistent fetal circulation, Two-site noninvasive oxygen monitoring in **358** (case report)
Pharmacology instruction, Using medication cards in **660** (methods, devices, & notes)
Pharmacology quiz **385**
Pharmacology quiz answers **463**
Poliomyelitis & late-onset respiratory failure **755** (case report)
Polyneuritis, Respiratory failure in ascending idiopathic **457** (article)
Polyvinyl chloride oxygen cannulas & allergic dermatitis **1024** (case report)
Positive pressure ventilation quiz **855**
Positive pressure ventilation quiz answers **945**
Postoperative prophylactic ventilation **949** (report)
Pressure gradients in air entrainment **315** (letter)
Pressure relief valve placement in Bourns BP200 infant ventilator **341** (article)
Private granting agencies **128** (research guide)
Probability **154** (research guide), **653, 739, 851, 1015** (articles)
Problem-oriented medical records and logic **1145** (article)
Problem-reporting program, USP **252, 761** (reports)
Product problems reported **761** (report)
Product recalls & improvements **252** (report)
Propellant, Freon, Hazards of **50** (article), **619** (letter)
Prospective experimental methods **173** (research guide)
Prostaglandins in lung tissue **264** (Basics of RD)
Pseudomonas aeruginosa, airborne, contamination from patients **742** (article), **1093** (letter)
Publication review process **438** (editorial)
Publishing experimental studies **185** (research guide)
Pulmonary circulation **264** (Basics of RD)
Pulmonary edema **264** (Basics of RD)
Pulmonary function in sarcoidosis **63** (case report)
Pulmonary function in small airways obstruction **59** (article)
Pulmonary function test results in bronchodilator challenge **59** (article)
Pulmonary function tests in upper airways obstruction **665** (Basics of RD)
Pulmonary hypertension, chronic **264** (Basics of RD)
Pulmonary interstitial emphysema management by selective bronchial intubation **751** (case report)
Pulmonary sarcoidosis, Radiographic & pulmonary function changes in **63** (case report)
Pulmonary vascular resistance **264** (Basics of RD)
Pulmonary vasoconstriction, hypoxic **264** (Basics of RD)
Puritan resuscitator assessment **1136** (article)
Quality controls, blood gas, compared with tonometry **441** (article)
Quiz on pharmacology **385**

Quiz on pharmacology, Answers to **463**
Quiz on positive pressure ventilation **855**
Quiz on positive pressure ventilation, Answers to **945**
Radiographic changes in sarcoidosis **63** (case report)
Random variables **154, 173** (research guide)
Randomizing samples in research **154, 173** (research guide), **564** (articles)
Randomized block design **564** (article)
Reasoning, inductive & deductive **1145** (article)
Recall notice about Airbird resuscitator part **909** (letter)
Recall & product improvements **252, 761** (reports)
Recredentialing in respiratory therapy **345** (article)
Reference books in medical literature **113** (research guide)
Registration in respiratory therapy **345** (article)
Registry examination **15** (letter)
Regression model, simple linear **845** (article)
Reliability of MA-1 & BEAR 1 **838** (article)
Repeated measures in statistics **448** (article)
Research, biomedical **44** (editorial)
Research budget **139** (research guide)
Research design **353** (article)
Research by faculty, Development of **44** (editorial)
Research, nursing **44** (editorial)
Research project design **353, 448, 564** (articles)
Research project objectives **238** (article)
Research proposals **139** (research guide)
Research in respiratory medicine/therapy **44** (editorial), **111-90** (research guide)
Research results, reporting **1015** (article)
Research, Role of statistics in **238** (article)
Research training, student **44** (editorial)
Resistance, pulmonary vascular **264** (Basics of RD)
Respiratory failure in Landry-Guillain-Barré-Strohl syndrome **457** (case report)
Respiratory failure & multiple sclerosis **452** (case report)
Respiratory failure in previous poliomyelitis **755** (case report)
Respiratory therapy educational programs, Accreditation of **345** (article)
Respiratory therapy practitioner today and tomorrow **336** (editorial)
Respiratory therapy scope of practice **882** (statement)
Response variables **353, 448, 649** (articles)
Resuscitation, cardiopulmonary **639, 643** (articles)
Resuscitation & diving reflex **949** (report)
Resuscitator bags, Oxygen delivery performance of **928, 1136** (articles)
Resuscitator part recall notice **909** (letter)
Resuscitators, manual, Assessment of **1136** (article)
Retrospective experimental methods **173** (research guide)
Review process for publication **438** (editorial)
Robertshaw resuscitator assessment **1136** (article)
Roentgenologic workup of the chest **955** (Basics of RD)
Saklad, Dr Meyer, legacy to would-be authors **438** (editorial)
Sample selection in research **564** (article)
Sample size estimation **448** (article)
Samples, dependent or paired **745** (article)
Sampling, cluster **564** (article)
Sampling, random **564** (article)
Sampling, stratified **564** (article)
Sampling, systematic **564** (article)
Sarcoidosis **63** (case report)
Scope of practice **882** (statement)
Self-evaluation examination **1029**
Self-evaluation examination answers **1155**
Simulations, clinical, using anesthetized dogs **823** (article)
SIMV = Synchronized intermittent mandatory ventilation
SIMV-IMV comparison study **554** (article)
Single-blind study **173** (research guide)
Small airways obstruction & FEF25-75% **59** (article)
Smoking freedom of choice **230** (editorial)
Society of Critical Care Medicine meeting **949** (report)
Spirometers, ventilator, associated with Acinetobacter infection **232** (article), **619** (letter)
Standard deviation **649** (article)
Standard error of the mean **649** (article)
Starling equation **264** (Basics of RD)
Statistical analysis **649** (article)
Statistical graphs **154** (research guide)
Statistical tables **154** (research guide)
Statistics, descriptive **154** (research guide)
Statistics, inferential **154** (research guide)
Statistics in respiratory research **238, 353, 448, 564, 649, 745, 885, 934, 1015** (articles)
Statistics role in respiratory research **283** (article)
Sternomastoid muscle contraction in COPD **937** (article)
Stratified sampling **564** (article)
Student research training **44** (editorial)
Sudden death syndrome **639, 643** (articles)
Sudden sniffing death syndrome **50** (article), **619** (letter)
Surfactant, Effect of breathing patterns on **377** (Basics of RD)
Synchronized IMV = SIMV
Syringes & filling volume effect on blood gas values **558** (article)
Systematic sampling **564** (article)
t test **745** (article)
Tables, statistical **154** (research guide)
Tchebysheff's Theorem **649** (article)
Temperature-compensated blood gas data **260** (questions & answers), **523** (letter)
Test statistic **745** (article)

Thoracic pump mechanism in CPR **639** (article)
Tonometry compared with blood gas quality controls **441** (article)
Tonsillectomy & upper airways obstruction **79** (report)
Transcutaneous oxygen monitoring in persistent fetal circulation **358** (case report)
Transcutaneous Po_2 monitor electrode adjustment **214** (letter)
Tube, endotracheal, cuff deflation **16** (letter)
Two-site noninvasive oxygen monitoring in persistent fetal circulation **358** (case report)
Upper airways obstruction & arterial blood gases **665** (Basics of RD)
Upper airways obstruction, Pulmonary function tests in **665** (Basics of RD)
USP problem-reporting program **252, 761** (reports)
Variables, dependent **154, 173** (research guide)
Variables, independent **154, 173** (research guide)
Variables, random **154** (research guide)
Variables, response **353, 448, 649** (articles)
Ventilation, differential, & PEEP in management of bronchopleural fistula **654** (case report)
Ventilation at home for infants & children **949** (report)
Ventilation: hyperventilation for persistent fetal circulation **1019** (case report)
Ventilation, postoperative prophylactic **949** (report)
Ventilator (Healthdyne infant) computer problem **809** (letter)
Ventilator (MA-1) modification for demand flow and exhaled volume monitoring during continuous flow IMV with PEEP **941** (methods, devices, & notes)
Ventilator nomogram for Bourns BP200 **248** (methods, devices, & notes)
Ventilator pseudo-failure & endobronchial nasogastric tube insertion **851** (case report)
Ventilator spirometers associated with Acinetobacer infection **232** (article), **619** (letter)
Ventilator as vehicle of airborne bacterial contamination from patients **742** (article), **1093** (letter)
Ventilators (MA-1 and BEAR 1) operating costs & reliability compared **838** (article)
Ventricular defibrillation **643** (article)
Venturi O_2 mask principle **17** (letter)
Vitalograph resuscitator O_2 delivery performance **928** (article)
Volume ventilators's operating cost & reliability **838** (article)
Volume-oriented IPPB **1057** (questions & answers)
Volumetric diffusion respiration & Bird ventilator **1062** (report)
Warner-Chilcott Literary Award **1284**
Wilcoxon matched pairs signed rank test **745** (article)
Wilcoxon rank sum test **745** (article)
Writing case reports **925** (editorial)
Writing a research study **185** (research guide)
X-ray changes in sarcoidosis **63** (case report)
X-ray of chest by conventional methods **955** (Basics of RD)
Xylocaine in prevention of airways obstruction after tonsillectomy **79** (report)
Year-end quiz (1979) answers **87**
Z-test **745** (article)
Z-scores **154** (research guide)
